The mission of the Foundation is to build awareness, understanding and a positive public perception of agriculture through education.

2020 BOOK OF THE YEAR

“Full of Beans: Henry Ford Grows a Car” by Peggy Thomas

Elementary

Henry Ford made cars. Millions of cars. But this story isn't about cars. Well...maybe just one. It's about one car and a lot of beans. Award-winning author Peggy Thomas and illustrator Edwin Fotheringham explore this American icon's little-known quest. With vibrant shades of yellow, green, and blue dominating Fotheringham's digital illustrations, “Full of Beans” inspires readers of all ages to think innovatively—even to build a car completely made of soybeans.

AE-FOB19-001-001

18.99

Educator's Guide

Elementary

This educator's guide includes eight activities that encourage students to understand how soybeans are grown and the ways in which we utilize them everyday. Target age range is third grade through fifth grade.

AE-FOBLP-001-001

4.00

Soybean Ag Mag

Elementary

Learn all about how such a small bean can have a big impact from the newly updated Soybean Ag Mag. Discover where soybeans are grown and get the inside scoop on families that farm soybeans across the U.S.!

What is Sustainable Agriculture?

Lesson 1 - Sustainable Agriculture: Introduction

National Learning Standards:

- HS-ESS-1 Human Sustainability: Construct an explanation based on evidence for how the availability of natural resources, occurrence of natural hazards, and changes to climate have influenced human activity.
- HS-ESS-4 Earth and Human Activity: Evaluate or refine a technological solution that reduces impacts of human activities on natural systems.
- WHS.12.2 Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

Grade Level: 9-12

Lesson Length: 60 minutes

Learning Objectives

- Participants will:
- Define key terms related to sustainable agriculture
- Identify key events throughout agricultural history and their effects

Materials and Equipment Needed:

- Video: Lesson PowerPoint
- KWL poster (2)
- Introduction to Sustainable Agriculture Activity Sheet (1 per student)
- Post-it notes (at least 3 notes per student)
- Access to the internet

Cross-Curricular Connections:

(Use these suggested adaptations to make learning across the curriculum easy!)

Science	Technology	Engineering	Mathematics
Examine the plant lifecycle by growing a small historical garden across your classroom. Select crops that were originally grown in your area.	Conduct a mini research project on technological advances throughout agricultural history and their impact on sustainability.	Design a prototype of a system that could help make their school more sustainable.	Use a Venn diagram, bar graph, or NOAA's website to research and evaluate and chart climate change data.

Teacher Preparation:

- Create KWL posters
- Print Introduction to Sustainable Agriculture Activity Sheets
- Reserve access to computer lab, if necessary

1

Sustainability Resources

Middle- High School

These lessons were designed to increase student's knowledge about the social, economic, environmental and production components of sustainable farming and ranching in the 21st century.
