Are you looking for a great way to promote agriculture in your local schools?

Join American Farm Bureau Foundation for Agriculture and encourage your local schools to Read with a Farmer on September 6th!

Honor National Read a Book Day and invite the folks who proudly grow our world’s food, fiber, and fuel to sit down with your students and read a book about agriculture.

Use these resources to find the right book and to promote our Reading with a Farmer event!

- Book of the Year and Guide
- List of Accurate Ag Books
- Letter for the students to take home to their parents!
