- Where does our food come from and who grows it?
#Food&FarmFacts answers these questions as it explores topics about American agriculture. Purchase your copy today:
[Fb.org/store](https://www.fb.org/store)
- Agriculture touches every part of our lives—from the food on our tables, to the wood that frames our homes, the fiber in our clothes and even the renewable fuel in our cars. Learn more about American agriculture in the latest issue of #Food&FarmFacts: <https://www.agfoundation.org/resources/>
- #Food&FarmFacts provides readers with the opportunity to learn more about the importance of agriculture—in addition to how and why farmers and ranchers do what they do to produce food, fiber and renewable fuel. Learn more:

- Today, 98% of all U.S. farms are owned by individuals, family partnerships or family corporations. Just 2% of America’s farms and ranches are owned by non-family corporations or other entities. Learn more about American agriculture in the latest #Food&FarmFacts: <https://www.agfoundation.org/resources/>
- A typical Holstein dairy cow weighs 1,500 pounds and will produce an average of more than 25,000 pounds of milk each year. A cow converts roughage and grains not consumed by people into high-energy foods. Learn more #Food&FarmFacts in the latest issue: <https://www.agfoundation.org/resources/>
- Pizza comes from America’s farms and ranches. Americans consume more than 3 billion pizzas annually. It takes 7 minutes, on average, to prepare a pizza from scratch. Learn more
