

AN ACRE OF LAND

One acre of land can produce many different types of crops, depending on the fertility and type of soil, how much rain falls and how much the sun shines.

LOOK AT HOW MUCH CAN GROW ON ONE ACRE

Cotton | **840 lbs**

Wheat | **2,784 lbs** (46.4 bushels)

Industrial Hemp | **5,300 lbs of straw**

Strawberries | **50,000 lbs**
